Dear ^{BILL}~~Mr.~~ Wedlake:

Re: Colbert Landfill Minimum Functional Standards (MFS) Final Monitoring Plan,
Dated September 5, 1996\Completion

Thank you for the revisions in the Final MFS Monitoring Plan which we received on December 26, 1996. Ecology has reviewed the revisions on pages 3-3, 3-4 and 3-5 and has found them to be consistent with our previous telephone conversations. In accordance with the Consent Decree, we have determined the Final Monitoring Plan to meet the requirements of the Minimum Functional Standards of WAC 173-304 and the Scope of Work in Appendix B of the Consent Decree.

We will review the quarterly MFS monitoring data submitted in the Colbert Landfill Remedial Action Quarterly Status Reports, as identified in Section 4.0 of the Final Monitoring Plan. We will review the "as built" report on the recently installed monitoring wells to ensure they meet MFS requirements. We understand this "as built" report will be submitted shortly. We anticipate a final inspection of the construction activities for MFS in the very near future. We look forward to a successful partnership with Spokane County and the Spokane County Health District in a successful MFS program.

If you have any questions about this letter please contact me at (360) 407-7239. Happy New Year.

Sincerely,

Michael Kuntz
